Attn: Eric Fryar

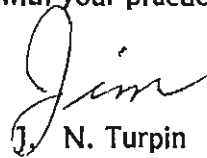

I apologize for this memo being so late, but I did want you and Etta to know how I feel about the Environmental Analytics case.

I feel like we may have been too lenient on the lawyer in Corpus Christi (Feferman) and the auditor (Harvard), but overall I felt like you did a superb job in the courtroom. I can honestly say that your preparation and delivery in the court room far surpassed any attorney which I have had any dealings with.

I guess its a shame we didn't recover or win more for all of our time and effort (yours included) that we put into the case.

Again, I appreciate yours and Etta's efforts in the case and should I ever have need of an attorney in Houston, I would choose you again, and will recommend you to anyone else that may ask for my advise.

Here's wishing you the best as you continue with your practice.
